Central education classes

Module: Exploring an Obstetric Event Leading to Adverse Outcomes for Mother and Neonate

Jan. 1 • Corresponding skills date at each hospital TBD (see P. 7)

Webinar: An Innovative and Family-centered Approach to the Care of Opioid-exposed Infants and Families: Eat/Sleep/Console (ESC)

March 26 • 9–11 a.m.

Guest lecturers: Elizabeth Forbes, MSN, RN, CNML, and Amy Petrucelli, BSN, RN
Yale-New Haven Hospital, New Haven, Connecticut

Module: Complications of Hypertensive Disorders on the Maternal-Neonatal Dyad

July 1 • Corresponding skills date at each hospital TBD (see P. 7)

Pharmacology Review – Common Medications Used in Obstetrics

Nov. 6 • 9–11 a.m. • Prisma Health Children's Hospital, Warren Derrick Classroom

Obstetric education classes

Basic Fetal Monitoring

This introductory course provides a basic level of understanding and competence in electronic fetal heart monitoring for new Labor & Delivery or Antepartum nurses.

Perinatal Systems has applied for Continuing Education Credits for this course.

Dates:

Jan. 19	Aug. 3
March 16	Sept. 14
May 25	Oct. 26
June 29	Dec. 7

Time: 8 a.m.–noon

Location:

Richland campus
14 Richland Medical Park Dr.
Fourth Floor Classroom

AWHONN Intermediate Fetal Monitoring Course

Dates:

Jan. 27 & 28	(2 Medical Park Rd., Classroom A)
March 24 & 25	(2 Medical Park Rd., Classroom A)
May 19 & 20	(2 Medical Park Rd., Classroom B)
Aug. 25 & 26	(14 Richland Medical Park Dr.)
Oct. 19 & 20	(14 Richland Medical Park Dr.)
Dec. 15 & 16	(14 Richland Medical Park Dr.)

Time: 8 a.m.–4 p.m. (both days)

AWHONN Advanced Fetal Monitoring Course

Dates:

Feb. 23	(2 Medical Park Rd., Classroom B)
April 14	(2 Medical Park Rd., Classroom A)
Nov. 10	(14 Richland Medical Park Dr.)

Time: 8 a.m.–5 p.m.

Please note:

Students **MUST** bring a new, unused student pack to both AWHONN courses (required to complete the course). Review of AWHONN's *Fetal Heart Monitoring Principles & Practices*, 5th Ed. textbook is required for participants.

All books should be purchased through Kendall Hunt Publishers (directions and link will be provided upon course registration).

AWHONN Intermediate Fetal Monitoring Course

This two-day course promotes integration of knowledge and skills essential for clinical assessment, promotion and evaluation of fetal well-being during labor.

This course is designed for RNs and MDs who have previously completed a basic or foundations FHM course and who use fetal heart assessment and monitoring technology in an intrapartum setting.

18 contact hours of CNE and 15.25 hours of CME are provided.

Fee: None for S.C. nurses • \$25 for out-of-state nurses

AWHONN Advanced Fetal Monitoring Course

This one-day course is designed for clinicians who have successfully completed the intermediate FHM course or a comparable FHM course, and/or are certified or have added credentials in fetal heart monitoring.

Eight contact hours of CNE or 6 hours of CME are provided.

AWHONN Intermediate EFM Instructor Course

Please contact Michelle Flanagan directly for availability/requirements.

Locations:

Richland campus
2 Medical Park Rd., Lower Level
Classroom A or B

Richland campus
14 Richland Medical Park Dr.
Fourth Floor Classroom

Neonatal education classes

Neonatal Resuscitation Program (NRP)

The Neonatal Resuscitation Program requirements include:

- Study materials from the Textbook of Neonatal Resuscitation, 7th ed.
- Completion of all 11 lessons of the NRP Provider Course online
- Completion of the NRP eSim cases online
- Completion of the Skills/Simulation portion of the course within 90 days of successfully completing the online examination and eSim cases.

Participants will be responsible for completing the online requirements and must bring the online examination verification to the Integrated Skills Station on the day of the course. There is NO cost for the Skills session. After Perinatal Systems receives your registration form, you will receive a confirmation letter with instructions for accessing the 7th Edition NRP Provider Curriculum.

S.T.A.B.L.E.

The S.T.A.B.L.E. program provides general guidelines for the assessment and stabilization of sick infants in the post-resuscitation/pre-transport stabilization period. The course is designed for all healthcare personnel who provide care for well or sick infants.

The S.T.A.B.L.E. pre-test must be completed before attending the class. It will be sent to you by Perinatal Systems with your registration confirmation. S.T.A.B.L.E. books are not required to complete the pre-test and will be provided to you on the day of the class to use as a reference. Books are available for purchase if desired at <http://www.stableprogram.org/catalog/index.php>.

Continuing Education Credit

Perinatal Systems has applied for Continuing Education Credits for this course. Prisma Health is an approved provider of continuing nursing education by the South Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Dates:

Jan. 7	May 6	Sept. 2
March 11	July 15	Nov. 11

Time: 8:30 a.m.–12:30 p.m.

Location:

Prisma Health/University of South Carolina School of Medicine Columbia Simulation Center
15 Medical Park Rd., Lower Level
3555 Harden Street Ext.

Dates:

Feb. 9	June 15	Sept. 21
April 13	Aug. 17	Nov. 16
May 11		

Time: 8:30 a.m.–4 p.m.

Location:

Prisma Health Baptist Hospital
1501 Sumter St., Classrooms D&E

Perinatal emergency simulations

Perinatal skill sessions to be held at your hospital

A new offering this year will be two modules that can be accessed online with a corresponding Skills Day session to be held on-site at your hospital. Outreach educators will contact each hospital to schedule the on-site skills session.

Module #1 – Exploring an Obstetric Event Leading to Adverse Outcomes for Mother and Neonate
Available January 2021 through June 2021

Module #2 – Complications of Hypertensive Disorders on the Maternal-Neonatal Dyad
Available July 2021 through December 2021

Perinatal emergency simulations on the mobile *SimCOACH™*

2021 marks the sixth year that the S.C. Birth Outcomes Initiative (BOI) and Prisma Health/University of South Carolina School of Medicine Columbia Simulation Center have worked together to provide on-site simulations via the mobile *SimCOACH™*. New scenarios are developed each year to provide comprehensive, realistic maternal and neonatal simulation experiences and are facilitated by MFMs, Perinatal Systems outreach educators, and Sim Center team members. Previous scenarios have included:

- Obstetric emergencies: shoulder dystocia, hemorrhage, intrauterine resuscitation, hypertensive crisis, seizures, etc.
- Neonatal emergencies that corresponded with maternal scenarios

***SimCOACH™* dates are scheduled directly with each hospital** by Prisma Health/University of South Carolina School of Medicine Columbia Simulation Center team members.
